

# HEAT: ADVENTURES IN THE WORLD'S FIERY PLACES

An adventurous ride through the most blisteringly hot regions of science, history, and culture. Melting glaciers, warming oceans, droughts-it's clear that today's world is getting hotter. But while we know the agony of a sunburn or the comfort...

## Reader's Opinions

Bill Streever is a weird guy. But I like the way he writes about science and history. Kind of like if Bill Bryson were crazy.

I read this because I liked Cold, which was a better book than this one. The first parts about the desert and fires were good. The history of oil drilling in the northeastern US was somewhat...
