Reader's Opinions

This first 60% of this book was all about the murder case. It held absolutely no interest for me, but I kept reading anyway to get to the good stuff. When the good stuff finally happened, it was a semi-private BDSM scene and no sex. And it didn't do anything for me. So, I stopped reading at 65% to cut my losses. I will not rate since...

A shot of adrenaline. I kept my breath through the reading, because of smart and fascinating characters and of mystery that give me a thrill of fear and excitement. I love both the authors, together are amazing.
