Reader's Opinions

Absolutely fantastic scifi romance! If you are looking for a great read that will take your mind off the reality we call life, you can't go wrong with Ciara Lake's The Triaxen.

good plot but something is a little sickening in this book. Maybe the way of easyness the author use in it.I didn't like how the heroin accept everything without a real fight or something. There is no real fight ... I'm a little desappointed!
