Reader's Opinions

I love the HeartMates series by Robin D. Owens but wasn't too sure about reading this series as I thought it was more science fiction.I am happy to say I was quite wrong and glad I decided to go ahead and read this series. As usual Robin Owens does not disappoint. She provides a rich background and a wonderful story.

So far I've dropped it in the tolet and not read the first book but this far it's actually rather good. I really enjoyed this. Not amazing writing and nothing all that new but a fast, fun read - popcorn book all the way. I'll read the others if I can get my hands on them...for some reason it's really difficult to find...
