# OVER: THE AMERICAN LANDSCAPE AT THE TIPPING POINT

For more than 30 years, Alex MacLean's aerial photographs have captured the evolution of the American landscape and the complex relationship between its natural and constructed environments that contribute to climate change. Over: The American Landscape at the Tipping Point is an ambitious and visually breathtaking catalogue of the extraordinary patterns and profound physical consequences brought about...

Reader's Opinions

This is basically a coffee table book. The photos in it have been taken by Alex Maclean as he piloted his own plane over the American landscape. The photos are very good, and the brief captions are generally useful. Each picture is tagged with the location, and at the...

Beginning with the Native American proverb, "Treat the earth well: It was not given to you by your parents, it was loaned to you by your children," what follows is a visual masterpiece and brutal expos of the unsustainability of 21st century American existence. Though the primary theme is undeniably bleak, a compelling case is made...
