

VICTORIA'S HEYDAY

The 1850s were not only the central and most characteristic decade in the Victorian era but also the time when Victoria and Albert were happiest and most popular with their people. In this beautifully illustrated companion volume to *The Prince of Pleasure* and *The Edwardians* Mr. Priestley surveys the social, political, industrial, religious, literary and artistic life of this decade.

Reader's Opinions

A year-by-year examination of developments in Britain from 1950 till 1960, replete with color plates and a personable tone. BTW, this is the first book to successfully explain the Crimean War to me.
