## Reader's Opinions

This is the second volume of the early Wally West stories. They feel a little dated, but not in a distracting way. Overall this was a fun read. I always like stuff with the Reverse Flash, Professor Zoom.

This was a lot of fun -- I can see why Mark Waid's Flash run is so highly-regarded. I loved getting to understand the relationships between the different Flashes (and meeting Johnny Quick and Max Mercury for the first time), and the story did a great job of showing us who Barry was without actually (spoiler alert!) resurrecting him....
